

YOUR PAINTING & STAINING EXPERTS

COLORIFIC CUSTOM PRE-FINISHERS

Pre-finishing you need. Quality you can trust.

OUR TRUSTED CLIENTS

"IT'S ALWAYS CHEAPER TO DO THE JOB
RIGHT THE FIRST TIME."

- PHIL CROSBY

UNRIVALED QUALITY

After over 25 years in business you can trust that we've mastered proven methods of application in painting and staining, specializing in providing a manufacturer-like finish that lasts. All of our orders are 100% hand-sanded and handled with the utmost care. This allows us to be extremely attentive to detail and results in a near immaculate finish.

At Colorific we are one of the very few businesses that are able to custom colour match and will match any colour you need. Our 5000 sq. ft shop is equipped with a custom spray booth that is able to handle oversized items as well as the average sized order for a custom build or renovation. These are just a few of the things we believe that set us apart from our competitors

At Colorific we stand by our work and will do whatever it takes to ensure your products leave our facility in pristine condition. We even provide complementary samples to showcase the quality craftsmanship we are proud to provide. We are confident that once you choose Colorific, we will become your trusted source for all things pre-finished.

WHAT WE SPECIALIZE IN

WE DO WHAT WE KNOW

STAINING & PAINTING

1

Whether you choose to have your products stained or painted, at Colorific we use the highest quality of materials along with mastered methods of application to ensure your products receive the manufacturer-like quality finish that lasts for years.

COLOR MATCHING

Every shade and hue, from chocolate brown to sky blue, is available to you. We have the ability to match existing and mix custom colours within a 98-100% success rate.

2

KITCHEN & CABINETS RENOVATION

3

Choosing to refinish your kitchen or household cabinetry can sometimes be a daunting task but it doesn't have to be. We strive to make it a stress-free experience by offering you in-home consultations and sharing our expert opinions in choosing a color and finish.

WHAT WE FINISH

Fiberglass Doors* | Wood Windows & Doors | Metal Windows & Doors | Garage Door Panels | Siding and Trim | Hardwood | Transitions and Nosings | Handrails and Banisters | Mouldings | Re-Finishing Furniture & Kitchen Cabinetry

*specialization in

4 THINGS THAT SET US APART

WE ARE VALUE DRIVEN

ATTENTION TO DETAIL

We not only take the time to prep and sand before we spray but we also fix any minor deficiencies and sand in between coats. This process ensures it has an immaculate glass or matte like finish. On the off chance your products arrive damaged from the manufacturer, we contact them directly for replacement - so you don't have to.

WARRANTY APPROVED PRE-FINISHING

9/10 on-site painters are unable to finish the tops and bottoms of a door largely due to lack of proper access post installation. Unfortunately, this voids most door manufactures' warranties when they get moisture or water damage. At Colorific we finish all 6 sides, which gives you the best shot at warranty coverage should any damage ever occur.

DAMAGE PREVENTION

Unlike our competitors, we have the ability to store your finished products until you're ready to install them. So instead of continually moving doors or other items around and out of your way during a build or renovation, your products remain immaculate until installation.

OUR COMMITMENT TO YOU

We value our customers and take pride in our work. This is why we offer a warranty on every job we do. If the paint and/or application fails within the first 2 years we will stand by our promise and fix any issues or discrepancies to ensure that at the end of the day you still have a beautifully finished product.
